Subject:	Intro to the New 'Oregon CZARA' Sharepoint Site

Jayne,

Thanks. It just took a little while to work with EPA's Sharepoint Administrator to get it set up. But we finally got it. I think I requested the Oregon CZARA Sharepoint Site about 2 weeks ago—at the encouragement of Jenny and others. J

I wonder if people will find it useful enough to want to use it. So far, I have uploaded only the "Timeline of Additional MMs" Word Doc + 8 scanned PDFs from the historical record (HQ's paper files).

If I set it up right, I have given the tech team read-write access and the legal and management team read-only access. It's easy for me (as the site owner) to change this as needed. Here's the URL:
https://usepa.sharepoint.com/sites/   **Non-Responsive**

Hopefully the NOAA folks have access. And hopefully any of the tech team can upload files as needed. As you may know, Sharepoint facilitates collaboration, including smart concurrent document editing, in case that's something we care to take advantage of.

Don
